CHARACTERISTICS	POINTS									
In addition to the requirements listed under “Better”, important issues are approached in an innovative and efficient way. The consultant has outstanding knowledge of the project conditions and a deep grasp of solutions depicted through state-of-the-art approaches and knowledge. The proposal details ways to improve the results and the quality of assignments by using advanced approached, methodologies and knowledge	20 (Best)									
The proposed approach is discussed in detail and the methodology is specifically tailored to the characteristics of the assignment and flexible enough to allow it to adapt to changes that may occur during the execution of the Service	15 (Better)									
The way to carry out different activities in the TOR is discussed generically by the Consultant. The discussion of the methodology is general and not specifically tailored in the project. The discussion indicates an average perception of the project conditions and does not reflect the specific features of the assignment.	(10) Good									
The minimum St required to pass is 75 POINTS										
The attention of the Consultant is drawn to Error! Reference source not found. – Bids must adhere to the maximum number of pages outlined in Clause 10.2(b).										

B. In response to the requests for clarification, please take note of the following:

Clarification No. 1: Is Certificate of Site visit/Occular Inspection Site Visit required? If yes, when are the available for site visit and who can assist us?

Response: Ocular Inspection/Site Visit is not required. However, the PNRI-BAC encouraged prospective bidders to inspect the site in order determine its conditions. Shortlisted bidders who opt to conduct a Site Inspection may visit PNRI anytime this week and look for Dr. Americus Perez.

Clarification No. 2: In the terms of reference, qualification of the consultant, it says that at least one of the key staff should be ASME certified however, this only applies to American Standard/Codes. Can we provide an equal certification like PSME Certified instead?

Response: Yes, the consultant can provide PSME Certification for one of its key staff in lieu of ASME Certification.

Clarification No. 3: For clarification of key personnel regarding Plumbing and Sanitary Engineer, do you require that he/she is both a Registered Master Plumber and a Sanitary Engineer or either will suffice? Or we have to provide Sanitary Engineer and Master Plumber?

Response: Either Registered Master Plumber or Sanitary Engineer will suffice.

For guidance and information of all concerned.

VALLERIE ANN I. SAMSON, Ph.D.
Deputy Director and Chairperson
Bids and Awards Committee
