GAD Activity Report 4

Men's Sexual Health Seminar with Free Ultrasound Screening of Kidneys and Prostate

To promote an inclusive approach in gender and development, the PNRI GAD committee, along with the Medical Clinic, organized an activity for the sexual health and overall well-being of PNRI male employees. The activity Men's Sexual Health Seminar was conducted on 25 June 2025 and was attended not only by PNRI male employees but also female employees and family members. Dr. Wilfredo Tagle, a urologist at the Delos Santos Medical Center, had served as the resource person in the seminar. Topics related to prostate health, healthy lifestyle and medical intervention were discussed.

The seminar was also supported by health service providers such as the Philippine Academy of Medical Specialists Foundation, Med V Medical Clinic and Pascual Pharmaceuticals. A free ultrasound screening of kidneys and prostate was also provided after the seminar. The activity did not only serve the PNRI male employees but also it was opened for female employees and their relatives. A total of 83 employees at PNRI have attended the seminar and have undergone the free ultrasound screening.

Also, this activity was organized in recognition of every month of June as Prostate Cancer Awareness Month. Program for men is also part of the priority of PNRI GAD committee especially that they also play a vital role in fulfilling the mandate of the institute.
