## PHILIPPINE NUCLEAR RESEARCH INSTITUTE

November 13, 2019

TO OUR VALUED CUSTOMERS,

We would like to inform you that as part of our quality system, we need to conduct preventive maintenance of our analytical facilities. This year, we have scheduled the maintenance activities to start on the last week of November.

In view of this, we will accept request for analysis until **November 22, 2019 only**. For gross alpha-beta analysis of drinking water (GAB), we may still accept requests until December 13, 2019 however, we will only conduct the analysis in January 2020. We will resume accepting request for analysis on January 6, 2020.

We hope for your understanding and consideration and that you will continue to come to us for your analytical needs.

Very truly yours,

  
**RAYMOND J. SUCGANG, R.Ch.**

Laboratory Manager

Nuclear Analytical Techniques Application Section
